[Verse 1]

Way down born in Dallas Texas
Misfortune seemed to call my name
The clouds cried down, the thunder rang out
Hell broke loose from heaven's gates

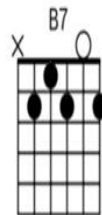

Relancez, appuyez votre battement...

Worked to the bone my whole life
Every step was a struggle to fight
Till God came to show me the light
And he said son won't you follow this way

[Chorus]

And now he's screaming:
Oh please won't you come with me
Back on home, leave bad company
Aren't ya tired of being treated cold and left for dead
It won't be easy for the broken and weak
But the fire insides got plenty heat
As you're stuck livin' in old country
With the sinners and the damned

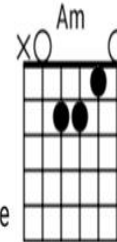

[Verse 2]

Now Jesus said:
Try your hardest to be your nicest
They'll think your weak when you show kindness
When it's all said and done
Lead a life that you won't regret

Cause I've lied, i've killed, stoled and I've cheat
Broken hearts in return had my heart beat
Tryna learn to live my life move and forgive

[Chorus]

Aren't ya tired of being treated cold and left for dead
Oh please won't you come with me
Back on home, leave bad company
Aren't ya tired of being treated cold and left for dead
It won't be easy for the broken and weak
But the fire insides got plenty heat
As you're stuck livin' in old country
With the sinners and the damned

[Bridge]

And all the sinners screamed
Fin en fade

[Out-Chorus]

Oh please won't you come with me
Back on home, leave bad company
Aren't ya tired of being treated cold and left for dead
It won't be easy for the broken and weak
But the fire insides got plenty heat
As you're stuck livin' in old country
With the sinners and the damned
And all the sinners screamed

(Ohhhhhhhhhhhhh)

(Ohhhhhhhhhhhhh)

Fin en fade
